# MAKING HEADWAY IN CANAL MATTERS.

Preliminary Agreements Made With Colombia and Panama Company. France Will Guarantee Title.

· IBY DIRECT WIRE TO THE TIMES.;

ASHINGTON, July 8.—[Exclusive Dispatch.] It can be announced upon absolutely reliable authority that negotiations for control of the Panama Canal by the United States have been completed in their preliminary stage. Not only has Secretary of State Hay made a preliminary agreement with Colombia for the right of way over the proposed canal route, but he has made a preliminary agreement with the new Panama Canal Company, present owner of the Panama Canal concessions and propertry, and also an agreement with the French government, that the claims of the old Panama Canal Company, whatever they may be, will never be presented against the United States. These agreements make it certain that the pending negotiations with Colombia, the canal company and the republic of France will be completed and made for the part of the State Department of Justice all before the Department of Justice all the papartment of Justice all the papartmen the canal company and the republic of France will be completed and made permanent at an early day, and that the United States will undertake to construct a canal by the Panama Tomas Great Calamity at Martinique, Bull Fight at there screet. construct a canal by the Panama route.

Matters have progressed at such a rapid pace that it is expected that a treaty between the United States and Colombia will be signed within the next few hours, and the negotiations with that canal company and France are in such an advanced state that nothing but the formalities remain to be concluded. To be blunt about the matter, the French government has given assurances to the United States government that it will protect the United States in the enjoyment of the title that the new Panama Canal Company has undertaken to give to this government.

ment.
So far as it goes, the title is perfect, and the guarantee of the French government that it will protect the United States against the claims of the old Panama Canal Company makes the title absolutely perfect, because, under international law, no claim can be presented against a foreign government except through the home government. Therefore, the new Panama Canal Company having signified its willingness to transfer to the United States its title to the Panama Canal property and route, no claim that stands behind the claim of that company to the canal can be presented to the United States except through the French government, and as the French government has given its guarantee that it will alment, and as the French government has given its guarantee that it will al-low so claim behind the new Panama Canal Company to be presented to this government, the title to the canal is perfect, and nothing remains to be done but to make a perfunctory ex-amination of the title.

WASHINGTON, July 3.—Final negotiations for the conclusion of the definite treaty between the United States and Colombia, which is to authorize the construction of the Panama Canal, began at the State Department today, at a meeting between Secretary Hay and Mr. Cromwell, representing the Panama Canal Company, and the BANNING CD., 222 South Spring Street. and Mr. Cromwell, representing the Panama Canal Company, and the Colombian legation here. At the same time, in order that the settlement of the legal questions connected with the transfer of the canal company's property to this government might run on concurrently with the diplomatic settlements between the United States

Colombia, and it was believed that the way being celar for new elections, the Congress could be elected and assembled within the next four months, and the body could proceed at once to ratify the canal treaty which is to be concluded here.

It is inferred from this statement that an arrangement has been reached between the Colombian Conservative party and the Liberals which will terminate the revolution which has now lasted for more than two years.

PLAN FOR ARBITRATION. WASHINGTON, July 9.—[Exclusive Dispatch.] In the effort to preserve his political prestige, which they believe to be tottering in Texas, the friends of Senator Bailey are endeavoring to secure an amicable settlement of the trouble with Solicitor Penfield of the State Department. The friends of Senator Bailey say that the Texan is furious over the matter. They fear bloodahed would ensue should Senator Bailey encounter Judge Penfield. They have consequently turned to arbitration, and propose that Senator Bailey select a friend, and that Judge Penfield select a friend, and that the two meet to discuss the situation, and endeavor to decide on some method which will afford a way for each to close the incident without loss of honor.

Convict Too Smart for Pursuers.

R. V. Ladow, examiner for the Department of Justice, recently looked into this question very fully, and after visiting the eastern penitentiary at Philadelphia, which is the only big institution in this country where the separate system of incarceration is employed, and making the rounds of other penitentiaries where the congregate system is in effect, he came to the conclusion that the latter method was preferable, and gave the best results. was preferable, and gave the best results.

United States prisoners are confined in the Fhiladelphia penitentiary, and on talking with them on one of his inspection trips, Ladow found that some did not fully understand why they were compelled to wear white cloths over their faces, when brought into contact with each other, or when strangers were about. The idea of the individual method is that it gives the criminal a chance to reform; whreas if he is constantly associated with other convicts, he wfil gradually lose all ambition to return to the straight and narrow path. IST THE NEW ASSOCIATED PRESS—A.M.I SEATTLE (Wash) July S.—Harry Tracy, the fugitive convict outlaw, has for the fourth time since his arrival at Meadow Point, given the officers of King county another chance to hag their quarry, a chance which for a time promised positive results, but his phenomenal good fortune, together with the delay in getting the pursuers on the ground, has again resulted in giving him his freedom—at least for the time being.

While dozens of officers were in hot pursuit in a vain endeavor to locate the phantom-like murderer on Bainbridge Island, and in the Hood Canal country, the now famous outlaw appeared almost within the corporate limits of Seattle, struck a trail in an easterly direction, and was definitely located in the home of Charles Gerrelis, one mile north of the town of Renton, at 2 o'clock this afternoon.

CHICAGO, July 9.-[Exclusive Dispatch.] N. W. Harris & Co. and a San Francisco bank have closed a contract for a block of about \$3,000,000 of the bonds of the Edison Electric Company of Los Angeles. The Los Angeles company, in addition to building a new steam plant and enlarging its present water power plant will install an additional water power plant on Kern river which will be capable of developing about twenty thousand horse power. This plant will be located near Bakersfield and the power transmitted over a double-pole line to Los Angeles, a distance of about one hundred miles.

The company's net earnings are satisfactory, and with the installment of this additional horse power, for which there is abundant demand in Los Angeles and vicinity, the indications are that the company's earnings will be nearly doubled during the next two or three years.

FIGHT FOR LIBERTY FAILS IN FACE

OF WINCHESTERS. Explosion Destroyed Rear Wall of Building and the Three Desperate Men in the Plot Let Others in Effort

IBY THE NEW ABSOCIATED PRESS—A.M.1

ST. JOSEPH (Mo.) July 9.—At 12:10
o'clock today, James Blades, Leck Allen and James Murray, notorious prisoners in the Buchanan County Jall,
wrecked the rear wall of the jail building with a powerful charge of dynamite. Allen, Blades and Murray then
made a fierce fight for liberty, but
the guards were too quick for them,
and beat them back with Winchesters.
Seventy-five prisoners are confined
in the jall, but many of them made
no effort to escape, and those who
were nervy enough to try to follow
Blades and his companions, were
clubbed into submission. As if by
a miracle, but one was injured, although the explosion was felt several
blocks away, and every window in
the Courthouse on the side next to
the jail was shattered. Blades and
Allen are under sentence for highway
robbery, and Murray is a government
prisoner. They are now chained face
down to the floor of their cells.
Other prisoners were apprised of
what was to happen about five minutes before the fuse was lighted, and
on advice of the leaders of the plot
they sought safety in their cells just
before the explosion occurred.

The jailer was at dinner in another
part of the building. Charles May,
who has three times been under sentence of death, declined to take part
in the plot, although he admits that
he knew of it.

The prosecutor altered the charge from felony to misconduct under the criminal law amendment. Sir Edward intimated that the defense would be conspiracy to rob and blackmail.

WHATCOM (Wash.) July 9.—At 11
o'clock this morning a masked man entered the house of James Gefford at
Ferndale, this county, bound and
gagged Mrs. Gefford, robbed the house gagged Mrs. Gefford, robbed the house of all money in it, then set fire to the house, locked the doors, and made his scape. The woman, by superhuman efforts, released her hands and removed the gag from her mouth. She then dragged herself to a window, where her screams attracted the attention of some mill hands near by, who effected her release from the house before it was destroyed. Business is completely suspended in Ferndale, and everybody has joined in the search for the robber. Sheriff Brisbane, with a posse, has just left here for the scene, and it is thought that, if the man is caught, he will be lynched.

A telephone message just received at the Sheriff's office says the man has just passed through that village on a wheel, evidently making for the international boundary line, only four miles distant. Between Ferndale and Linden he robbed two houses, leaving the occupants bound and gagged.

FATAL DUEL.

Toney had been left temporarily in the place of the ranch foreman, during the latter's absence. He and Daly had an alterecation, and finally both pulled platols and begania duel, Eleven shots were fired, and during the progress of the affray, the men made their way up an incline to a pasture gate, a distance of 100 feet. At the end of this distance Toney's gun was empty, and the threw the weapon at Daly, remarking, "Shake hands; you have got me." Toney walked a short distance and fell dead.

Daly returned to the house with both revolvers, which he placed in a cupboard, and immediately started for Burns to surrender himself.

Prof. Crook, who inspired the idea, has been elected an honorary member of the organization. # THAT LEGAL FIGHT AGAINST STEEL TRUST

[BY DIRECT WIRE TO THE TIMES.]

MEW YORK, July 9.-[Exclusive Dispatch] Russell Sage has joined in the fight against the bond-conversion plan of J. Pierpont Morgan for the billion-dollar steel trust. At Newark this afternoon, Vice Chancellor Emory signed an order, on the application of Robert McCarter, admitting Sage as co-complainant to the suit against the steel corporation brought by William and F. W. Hopkins, J. A. Hodge, B. Smith and I H. Curtis. The inter-pleading bill filed by Sage sets forth the fact that he is the owner of 8000 shares of the preferred and 2000 shares of the common stock of the United States Steel Cor-

Sage's appearance in this litigation means simply that he has reached the conclusion that the bond conversion plan of J. Pierpont Morgan is unwise. Morgan's plan was to retire \$200,000,-000 of the 7-per-cent preferred stock and issue in lieu of it \$250,000,000 of 5-per-cent bonds. Over T 90 per cent. of the stockholders voted in favor of the plan months ago, but two suits have since been brought by protesting stockholders, and the matter is now before the Jersey courts.

The fact that Sage, many times a millionaire. and accounted one of the shrewdest financiers in I the country, has joined in public condemnation of the plan sets at rest all questions raised by the United States Steel Corporation as to the character of the pending suit. One representative of the most important interests in the United States Steel Corporation said concerning it: "The real movers in this litigation inspired the attack upon the bond conversion plan. We I will welcome the institution of the new suit if it is brought; because we are determined, if possible, to expose the character of the methods of those who have been recently attacking plans which have been approved almost unanimously by the stockholders."

SAGE DENIES THE STORY.

NEW YORK, July 9 .- Russell Sage said this afternoon that the use of his name in connection with the proceedings at Newark against the I United States Steel Corporation was unauthorized. .

"I am one of the company's largest stockholders," said Sage, "and I would not attack my own property. I gave my proxy and voted for the bond conversion plan and so cannot appear as a complainant in an action to prevent it."

Ping-Pong for Toledo Jurymen.

The suggestion has just been cade in Toledo, O., that in the county Courthouse the court-rooms for juries that are out a long time be fitted up with ping-pong sets. It is said that the County Commissioner has reselved the suggestion favorably, and doubtless in short time the rooms of the staid old Courthouse of Toledo will be ringling to the cheerful notes of the pingpongers. One is inclined to speculate
as to what effect this may have upon
the length of time it will take a jury
to come to a decision. Ping-pongers
have been known to become so interested in their game as to forget to eat
and to sleep. How cheerful it will
be to the prisoner, too, as he sits with
his fate hanging in the balances, to
hear the merry little balls go scudding
over the table. It might possibly recall to his mind the story of a certain Nero, who is said to have fiddled

Florence Darch has got them going.
This young lady is rapidly climbing to the head of the list in the Prese Scholarship Contest. Yesterday she scored a gain of 3837 points, and is now in third place, only a few hundred points behind the leaders in the race.

Little Miss Darch is a phenomenon of energy and business tact. The fact that she is the sister of Edna Darch, the budding queen of grand tpera, no doubt gives her prestige, but her success in getting votes in the scholarship contest is principally due to her cwn personal charms and her untiring industry. Douglah is still in the lead, but Ressie Beatty is only 108 points behind him. The report of the Superintendent of Schools showed an annual increase of 12 per cent. in school membership for the year just passed.

The list of teachers for the coming year, accepted at the last meeting, was formerly declared elected, it being necessary, according to law, to hold the election after July 1.

The total work to be done upon the city school buildings during vacation, as decided upon last night, will cost 3944.

A communication was received from the Women's Auxiliary of the American Park and Outdoor Art Association, asking the board to cooperate with them in beautifying the school grounds. The request will be reported upon at the next meeting.

On the motion of Foley, the sympathy of the board was extended to the absent member, Walter J. Horgan, who is seriously iii.

The board decided to offer a reward of 356 for the arrest and conviction of parties engaged in defacing the Seventeenth-arrest school building. Hoodlams have lately broken almost every window in the school, and a determined effort will be made to stop the mischief and punish the offenders.

resperity of Burbank.

Racouraging reports of the fruit and grain crops of San Fernando Valley continue to come in, and if one may judge from the present outlook, this season bids fair to surpass all Ferlous records. Robert J. Adcock of this city, who has just returned from a visit to Burbank, has much to say about the crops of that section, and the prevailing activity in all lines of business. In speaking of his trip, Mr. Adcock said:

"During my short stay at Burbank I had occasion to visit several large ranches and get a fair insight into the situation in the valley. I was surpared to learn of the enormous crops for this season, both in grain and fruit, and case of the there are much better than for many years past. Apricots are very abundant, the trees in nearly every linstance being loaded down with the with and the alfalfa fields are aglow with hay stacks. Fruit picking has begun, and I believe when I say that whole valley, that my statement is correct, and will be borne out by all of

Trouble which has been 'rumbling under the surface for some time burst through the eratwhile placid surface of the heard's meeting and flowed in not works over the assemblage.

It had been very peaceful throughout the evening. The board had just finshed discussing the sad story, of Foreman Downle's horse, which has a very lad dose of mange and two grooked these, when Folky rose slowly in his taight and raid: "Mr. Chairmal. I have been informed that 21 our last regular meeting, while my attention was diverted from the discussion. Mr. Olfen made the remark in open session that I could not be a gentleman if I tried. "If my recollection serves me "ight, I did," answered Giffen coolly.

"Then," said Foley, in anger-muffed tines, "I give Mr. Giffen this last opportunity to retract that statement and apologists for the truth," replied Giffen, turning white with anger, and preparing to get busy, as Foley lowered upon him.

And they got busy, though the meeting was officially adjourned before the worst came.

"I move we adjourn," shouted some one over the hubbub, seeing the impending peril, and hoping to avert it. The motion was carried with a rush, but it only brought the two angry sen closer together.

"I have nothing to apologize for,"

ROSECRANS TRACT!

WHY NOT LOOK SOUTH!

Other sections are beautiful and valuable, but the MOST MOINEY can be made NOW by the constant and mapid enhancement of CHOICE ACREAGE between the CITY and the HARBOR, and accessible to TWO ELECTRIC ROADS!

For VILLA SITES look at "ROSE-CRANS REGISTS"—the COMING HOLLY-WOOD—where fine views, climate, soil and beautiful melapharation or an INCOME.

PATING COUNTRY HOME, see other portions of the ROSECRANS TRACT, from 19 acres to 400 acres, adjoining the famous GARDENA and MONETA districts, where pumping-plants are raising alfaifa, berries and land values with 200 MINER'S INCHES OF WATER, developed in about six years, and where a net income of 500 per acre is often made from berries in full bearing!

YOU CANNOT MISS IT on the ROSECRANS TRACT. by applying to F. H. WILDE, ACENT, No. 439 DOUGLAS BLOG, or addressing owner, CARL F. RUSECRANS, P.O. box 230, CITY.

ever, for when his intended victim got through with him he had to be taken to a hospital, where several stitches were taken in his wounds and several yards of bandages were used to tie up his head.

James Smith, a conductor in the employ of the Los Angeles Railway Company, is the man who is responsible for McCormack's present condition. There is a woman at the bottom of the trouble, and owing to McCormack's efforts to keep the matter secret, just what caused the fight is not clear, Smith and his wife have been living with McCormack, and yesterday, as Smith was approaching the house at No. 1503 East Fourteenth street, McCormack ran up behind him and struck him a violent blow. Smith turned on him, and with a right-arm swing between the eyes, put McCormack on the street. Then he proceeded to spoil his countenance, and so successful was he that McCormack's best friends will have difficulty in recognizing him. He was assisted into the house, and Mrs. Smith telephoned to the police, and a patrol wagon was sent to take McCormack to the Receiving Hospital. Mrs. Smith accompanied him, and appeared to be very solicitous about his welfare. It took a doctor an hour to dress his wounds, and after that he went home.

NEW PITCHER SIGNED.

FORMERLY WITH CHICAGO. PORMERLY WITH CHICAGO.

A brilliant star has been secured in place of the "big pitcher" who disappeared from the local baseball firmament several weeks ago. It will be a "Saint" ampag the "Angels." James St. Vrain will be the successor of the great "Rube" Waddell, as the crack twirler of the Looloos. If records count for much the team will not lose much by the transfer, for, according to the "form books" St. Vrain is one of the best pitchers ever secured by the California League.

best pitchers ever secured by the California League.

The deal for St. Vrain's services was consummated last night, after several days' negotiations, and Manager Moriey telegraphed tickets and \$50 expense money to the new star. St. Vrain has been at Birmingham, Ala, for the past few days, and he will leave for Los Angeles today, accompanied by his wife and children. He is in perfect condition, and is expected to arrive in time to make his first public appearance on the slab here next Sunday afternoon.

In the contest today, Jones will pitch for the Looloos, and probably Chrystall for the Mud Hens, or Schmidt. This will be ladies' day.

CMELTER PROJECTED FOR KERN COUNTY. CHEAP FUEL MAKES IMPORTANT PLANT POSSIBLE.

Bishes Stockholders of South Bishe

Company Have Refused Dividends-Activity in the Mexico Pields-Pamph

let on Southern California Mines.

In Kern, as in this and other southern counties, there are important deposits of base ore, the veins of which contain gold in combination with sulphides of iron copper. These deposits are low-grade and cannot be worked at a profit owing to the scarcity of fuel and water, and the heavy cost of transportation to tidewater smelters. Such ore, however, can be treated successfully by the smelting process, and, as petroleum fael has been found to be the best, the suggestion is made that a smelting plant be established in a central section of Kern county.

Those interested in having such a plant argue that it would be the means of more than doubling the mineral output of Kern and vicinity.

DIVIDEND REFUSED.

The announcement recently to the effect that Bisbee stockholders of the South Bisbee Copper Company had received certain sums from the company, purporting to be dividend No. I. due them from the sale of the property to J. L. Campbell, is only the first-chapter in the affair. Previously the Bisbee stockholders had been fighting the company on an alleged fraudulent issue of the stock. Now word comes from Bisbee that fourteen of the stockholders have refused to accept the checks, and others will be asked to return them to the company's office in Los Angeles. The refusal of the checks is made for the reason that if indorsed and cashed it would be

TATICAN FORBIDS SISTER TO NURSE PRINCESS.

REFUSES TO REGARD ROSPIGLIOSI MARRIAGE AS LEGAL.

Wife Was Divorced Wife of Col. Parkhurts and is an American-Necessary for Prince to Send to England for Competent Attendant.

IBY THE NEW ASSOCIATED PRESS—A.M.1
ROME, July 9.—[By Atlantic Cable.] A great sensation has been caused here by the action of the Vatican authorities toward the Princess Joseph Rospigliosi, an American. Her husband is head of an ancient family of clerical nobility, and his brother is commandant of the Papal Noble Guard. On August 28, 1901, Prince Rospigliosi married here Mrs. Marie Jennings Reid Parkhurst of Washington, the divorced wife of Col. Frederick H. Parkhurst, of Bangor, Me. The ceremony was civil, and hence was not recognized by the Vatican. Princess Rospigliosi, who is now on the point of confinement, engaged an English Blue Sister as a nurse, and the latter took up her duties, but Cardinal MacChi (secretary of apostolic brivis.) heaving of this, forbade the sister to fu fill her duties on the ground that the marriage was non-existent.

The Prince was furious and exerted all his influence to overcome the scruples of the church, but without avail. Eventually, he was obliged to send to England for a nurse. The incident is expected to have important developments.

in excess of that of a year ago, and on a very conservative basis it is estimated that \$16,000,000 has been invested in Mexican mining properties since January 1, 1992. With the improved methods and modern machinery a greatly increased mineral output should be the result. Manufacturers of mining machinery have a largely-increased field and much attention will, no doubt, be given this promising field.

## DRIVEN OFF HIS CAR.

Drunken Negro Assaults Street-car Conductor With Knife and Compels Him to Desert His Post.

Him to Desert His Post.

An unknown negro, armed with a long dirk, made a determined effort to use his weapon on Conductor W. P. Frazier of car No. 220 on the Central-avenue line of the Los Angeles Railway at 10:30 o'clock last hight, and to save his life, Frazier leaped from the car, leaving only the negro and the motorman on board. The car was south-bound, and the negro was sitting inside. Above Adams street, the negro began vomiting, and Frazier, seeing that he was drunk, ordered him off the car. The negro showed fight, and approaching the conductor, dryw the dirk and made several vicious stabs at him. He did not give Frazier a chance to pull the bell rope, but followed him so closely that Frazier had to jump. The motorman knew nothing of the trouble, and receiving no signal to stop, kept on. A block below Adams street the negro jumped off as the car slowed up for the crossing. Nearly a mile south of that point, the motorman suddenly discovered that his conductor was missing. He went on to the end of the line and returned at once. SLUGGED "BENEFACTOR."

who always will have cause to remember his last visit to Los Angeles. He came early in the week, and on Tuesday night met a party of beliboys of the Angelus at Sam Sullivan's saloon. Fifth and Springs streets. There the boys had a quarrel with a waiter. The party went to another saloon, where the constable began displaying his weapons. He had a 44-caliber revolver, a shot-billy, a 10-inch hunting knife and a pair of brass knucks. He was trying to induce the beliboys to go back and whip the waiter, and finally handed one of them his brass knucks. Then they started to Sullivan's but on the way there was a dispute between the Fullerton officer and the beliboys, which culminated in a fight. The boys did not wait to give the visiting officer a chance to use his remaining weapons, but one struck him with the brass knucks, knocking him to the street, and cutting a long gash in his scalp. They took his knife and run from him, called a hack, and sent him to a surgeon to have his head sewed up. They gave the hackman the weapons, with instructions to return them to the Fullerton man as soon as they reached the doctor's office,

County Labor Council Raises the Boycott on Beer and Elects Officers.

Two Times reporters attended the semi-annual meeting of the Los Angeles County Council of Labor last night; one was requested to leave in rather forcible language, by about two hundred and fifty men, wildly clamoring and shaking their fists in impotent rage, and the other remained throughout the proceedings.

The reporters were not present by

"I move," said one, "that the boycott be lifted." Every one participated in the heavyweight lifting process when the motion was put to a vote. Block and tackle were not needed.

Most of the committees, of which there were about thirty, were obliged to report "no progress," but it developed that the waiters and waitresses were having some trouble, and that a harmless-looking little man didn't know whether any of the fish markets handled fish shipped by Japs or not. He had performed his duty to the best of his ability, however, and thought that maybe there were two markets that did.

If Mile M. Potter dies within the next year, it will cost the Equitable Life Insurance Company a quarter of a million dollars.

The largest life-insurance policy ever written in Los Angeles was delivered yesterday. It is for \$250,000 on the life of M. M. Potter, in favor of the Potter Hotel Company. The insurance was sisted by A. M. Jones of the Equitable company's local agency.

The purchase of this large amoupt of insurance is a protective measure of the part of the backers of Mr. Potter in his great hotel enterprises. It means that they value his life and services during this time at \$250,000 more than those of any other known man. Should the active and practical head of the company die before the completion of the projects contemplated it would cause heavy loss to the investors. So the members of the company which contains but four or five local capitalists, Mr. Potter himself being president.

This protective-insurance plan is new on the Pacific Coast, although it has been used in several notable instances in the East. It was suggested

If the land is held at too high a figure, condemnation proceedings will be instituted at once. A meeting of the Main-street property holders has been called for this afternoon at 4 o'clock in the Westminster Hotel to discuss the matter of the postoffice location.

This marks the first move toward the erection of the new Federal building, for which Congress has made an increased appropriation.

Assistant Postmaster Shoulters stated yesterday that from such information as has come to his knowledge, the department intends to proceed without delay in the matter, and that the case will be moved along as rapidly as possible.

Assistant Postmaster Shoulters is up in arms against the professional sign painters who have daubed the fence surrounding the government properties on Main street with gaudy advertisements, without asking, he claims, the permission of any official.

"I noticed those signs only a few days ago," said he yesterday, "and I intend to find out the perpetrators and make them paint the whole thing out. They have no right to trespass on government property, and some one is evidently renting the fence space for advertising purposes without authority."

There is general expression of satisfaction at the postoffice over the action of Postmaster Groff in promoting to the postion of superintendent of city delivery Julius Jannsen, to succeed Henry P. Thornton, who died last week.

Jannsen has for six years been clerk in the postoffice, has served two years as assistant secretary of the Civil Service Board, is president of the local branch of the National Association of Postoffice Clerks, and for some time had been assistant to Superintendent Thornton prior to his death.

He is but 2½ years of age, and is a son of Jacob Jannsen, who is a black-smith in this city, which trade theyoung man had learned before entering the postal service.

Col. Mark L. McDonald, the promoter of the proposed railroad from Sunset to tidewater, has been in Santa. Maria ten days, securing the right of way through that valley. In speaking of the enterprise he declared that the transportation of oil will be only a small part of the business, as the road will go through a country that only needs such communication with the outside world to bring it to the front as a great agricultural section.

The road will pass through the Cuyama Mountains, which are extremely rich in mineral indications, including asphalt, gypsum, salt and oil. From Fugier's Point to tidewater, twenty-five miles, the road will pass through one of the finest valleys in the State, and it is believed that this stretch alone would support a railroad.

It had been expected that the election would be pretty warm. Some of the people who put up their good, hard-earned money to keep the thing-and the walking delegates—going, and who don't like the way Jim Gray runs and rules it, had gone to the meeting with the avowed purpose of dethroning him. Gray had done politics, however, and thrown his enemies off the track, by having the melancholy word passed around that "under no circumstances," etc., would be stand for reëlection. He was "induced" to permit the use of his name, his lieutenants worked with might and main, and he was retained as czar. He "allowed" his name to be used on the grounds of fear that a contest among the other aspirants for the princely top-shelf honor would eause so much feeling that it might cause the disruption of the organization. Not a few of the members went home sore because Gray "got there" again. T. D. Fenneesy was elected first vice-president. Charles Vanderilp second vice-president, and L. D. Biddle secretary. Rytimate for Streets.

Yesterday Clerk J. T. Saunders of the street department finished the department estimates for the coming fiscal year. The Street Superintendent asks the Council to allow his department 239,785, made up of the following items: 128,078, made up of the following and the force be increased by forty laborers and fifteen teams that the force be increased by forty laborers and fifteen teams that the force eighty laborers at \$2 a day, thirty-five teamsters with team, \$3.50 per day; two cart drivers, \$2.50 a day, and one sewer flusher, \$3 a day; five asphalt workers, \$2.50 a day.

Last year the department was allowed for labor and running expenses, \$35,50,50 and running expenses, \$35,50,50; total, \$196,004,50. Of this allowance the following amounts were expended: Labor and running expenses, \$35,52,50; street sweeping, \$33,50,50; total, \$185,765,63, or \$7234,87 less than the total allowance. In addition to this expenditure demands for forty-five extra

An effort is being made by the friends of Walter Mallard to have his salary increased from 330 to \$125 a month. Mallard is the chief deputy in the City Assessor's office, and has had twelve years' experience in the work. A political grudge against Mallard on the part of some members of the Council is said to militate against his chances for a rise in salary.

Deputy City Treasurer Boyle Workman may also receive an increase from 330 to \$125 a month.

If the names of these men stand for anything, they stand for a faithful fulfillment of every promise—for big, broadgauge, liberal business ideas, for progress, for success. We are extensive advertising because this is the largest and most novel enterprise ever undertaken in Southern California; because in order to make a success of it, on the large scale plans large number of the best citizens who read this paper must be informed as to the scope of the plans and aims of this corporation. We do not seek either by advertisement or sales ship to unduly press the sale of lots. We give the plain facts for what they are worth. We already have enough applications for lots to assure a town of 3000 to 5000 people. The is easy. No applications registered after Saturday night.

HEAVY HOUSEWORK.

Perhaps there are few domestic tasks that make more of a strain upon a woman unaccustomed to such work than washing and ironing. Sweeping may tire her, but if she sweeps first with one arm and then with the other, as she should, she can made one side of of the body 'spell' the other. Scrubbing is thresome, and kneeding bread is not bing is thresome, and kneeding bread is not been seed of the hack. GO SLOW AT FIRST.

Until the houseworker has had chough experience to have become accustomed to this sort of work, she must be lenient with herself. Again, it may be urged that physical culture does not mean overwork. It means developing the russeles, not laming them. Let the woman who has this sort of thing thrust upon her go slowly for a while. It is better to let the washing and ironing drag for a week or so than to stiffen herself by undue energy.

Once more, let me relterate what has been said about the necessity of fresh air for the housekeeper. She gets more harm than good from doing work of this sort in an ill ventilated room. She need not labor in a draught, but she should have fresh, pure air coming into the room, whether she be standing at the tub or at the ironing board, busying herself making beds or kneading bread or sweeping or dusting. As carefully as she would avoid poor air let, her avoid a draught and the danger of taking cold after sech vere exertion. The muscles are relaxed after such work, the pores of the body are all open, and it is the best chance in the world to take a cold that will be hard to shake off, and may put a stop to the very good one is seeking to win.

BETTER FIRE PROTECTION.

REDLANDS, July 9.—As evidence that Redlands is taking on real city life, there is a widespread movement to provide better protection against loss by fire. Within a year a substantial firehouse has been built, and now there is a desire for two more. It is proposed to install an up-to-date fire-alarm system, and also to have the number of hydrants greatly increased. Just now the condition of the city treasury will not permit such an expenditure, and it is therefore suggested by some of the heavjest tax-payers that bonds be issued for the purpose.

SAN BERNARDINO, July 9,—And still the water question hangs fire. It was hoped that last evening the City Trustees would act finally on the main and supplementary propositions, but if was not to be. A month ago the heard voted not to consider any proposal that had not been submitted prior to the first meeting in July, but last night the question was reopened, and another proposition received. H. W. Niebet. Esq., representing J. S. Whiteman, offered to supply the city with 200 inches of water, more or less, perpetual flow, not less, however, than 200 inches, from the Whiteman ranch in Cajon Pass, seventeen miles north to the city, at the rate of 3350 per inch, delivered to the city at the ranch. It was stated that the Whiteman property embraces 154 acres of land upon which there now rise about 125 inches of water, and upon which not less than 300 inches can be developed within sixty days. From the ranch to the city reservoir is a distance of about fourteen miles, and to the head of the cement ditch into which the water of Lytle creek is now diverted, is a distance of nine miles, with a fall of about 500 feet. The pipe line, either to the head of the ditch, or the reservoir, would cost about \$2500 a mile. The board will visit the Whiteman ranch next Monday, and go over the ground carefully, before taking final action in the matter.

SANTA MARIA. CHILD A HEROINE

CITY TEACHERS.

BANTA MARIA, July 9.—Little Irene BANTA MARIA, July 2.—Little Irene iwalker, aged 12 years, has proven herself a heroine. She and her two-year-old brother and another little girl, aged 5 years, were playing in the yard of a relative in the vicinity of Garey, where they were visiting, when the little brother fell into a well, in which was eight feet of water. Calling to the little girl to run into the house for help, she herself jumped into the well, although unable to swim. Just as she struck the water the baby came to although unable to swim. Just as she struck the water the baby came to the surface. Grasping his hat, which was held on his head by an elastic cord passing under the chin, she manged to keep his head above water, while she herself clung to a board on the side of the well. While holding on for life and waiting for help, the elastic which supported the child broke, and the little fellow sank again. Upon

A few days ago they arrived at Fredalba Park, and, as usual, staked the horses out for the night to grase. The next morning the animals were missing, and have not been found yet. It was finally concluded that the animals had returned home, and one of the sons came here, expecting to find them, only to meet with disappointment. Miss Minnie Noble is visiting Mr. and Mrs. 8. T. INTEREST IN MUSTARD.

Los Angeles capitalists are interesting themselves in the mustard-growing industry of the Lompoc Valley, a few miles south of here, where nearly all the mustard of the United States is raised. Acres on acres of the finest mustard is about ready for harvesting. Heretofore the main, and probably only drawback, has been lack of fuel, but with the development of the wells of a local oil company, this may be overcome. INTEREST IN MUSTARD

tion with the intent of operating a large glass factory if sufficient quantities of alkali and limestone can be found. It is estimated that at least two hundred and fifty workmen will be employed in the different departments of the factory.

STORK HELD.

August W. Stork, charged with a nameless crime against a little girl, was examined yesterday behind closed doors before Justice Klamroth, and was held for trial in the Superior Court. Dist.-Atty. Willis appeared for the people, and Attorney J. G. Rossiter for the defense. The only witnesses examined were the little girl and Policeman Reynolds. The little girl told of Stork's attempted familiarity, and Reynolds told of his confession. Stork was held in \$250 bail.

A little excitement was caused by the court's rebuke of J. J. Schock, a friend of the defendant, who has threatened that if the accused man was bound over the justice would suffer for it. Justice Klamroth told Schock that it was in the power of the court to fine him for contempt, but he was let off with a reprimand.

CALLED HIM MONKEY. Charlie Jung, a good-looking chink employed as food artist at the home of Dr. B. F. Dake, objects strenuously to Dr. B. F. Yesterday he was passing along Colorado street, near the Southern Pacific depot, when somebody shouted: "Look at the monkey!" Charlèy saw that he was the person referred to, and promptly hied himself to the Chief of Police. He thought he could identify the boy who made the remark, and demanded that he be arrested for disturbing the peace. He found an ally in the Chief, who believes that natives of the Flowery Kingdom have their rights, and today an effort will be made to learn the name of the offender, so that he may be punished.

COMING ORANGE CROP.

COVINA, July 9.—While it is too early in the season to make an accurate estimate of the coming orange crop, it is apparent that it will fall short, and in this locality, unless the dropping of the fruit ceases within a few days, it will be less than last year.

A careful inspection of the graves show that the loss from dropping has been heaviest on the lighter soils, but not to the same extent as the navel trees.

Many theories have been advanced for the dropping also, but not to the same extent as the navel trees.

Many theories have been advanced for the dropping but the most plausible supposition is that it is due to unfavorance climatic conditions. Misses' and Children's Footwear at Cut Prices.

This mammoth sale of thousands of pairs of shoes at about what they cost to make is the greatest economy proposition in juvenile footwear that parents have had an opportunity to participate in. We all know just how hard most children are on shoes, and the annual bill in each family is an item of importance. You can save fully half of this amount by judicious buying now. Do you want to miss it?

# Sale of Fine Wedgwood Ware.

Refined, cultivated feminine taste requires dainty bric-a-brac and table ware to give an air of elegance to home furnishings -and but few wares are so generally admired as Wedgwood. It is expensive it is true, but fine art goods are all costly. One-third to one-half off regular prices means quite a saving on such artistic ware and the sale we begin today of thousands of pieces of these choice wares affords a matchless opportunity for you to gratify your tastes at prices usually paid for inferior wares both in quality and artistic effect.
